VIEW OF 300,000 PRINCE OF WALES IN FULL BLOOM

LADIOLI are rapidly gaining a foremost position in the flower market; especially notable is the enormous increase in glads used for forcing. To give you a comparison, just note the following quantities sold by us for forcing during the last 5 years:

1919-20 we sold 130,000 bulbs for forcing only.

1920-21 we sold 240,000 bulbs for forcing only.

1921-22 we sold 380,000 bulbs for forcing only.

1922-23 we sold 720,000 bulbs for forcing only.

1923-24 we sold 1,240,000 bulbs for forcing only.

In presenting our new wholesale catalogue, we beg to draw your kind attention to the fact that we are one of the largest growers of Gladioli in America, and that the varieties we offer, are absolutely true to name. We are more than ever in a position to give our customers reliable service and dependable quality. To achieve this, we have not spared costs; a new twenty thousand dollar warehouse has been built for the sole purpose of proper storing and treatment. Bulbs kept at the right temperature during the winter, will keep their vitality much better and can be forced.

**HINTS FOR FORCING:** Buy only the very best at least 1½ inch up and order early. The bulbs for forcing are looked after in the fall, every one is examined and stored away at the right temperature until shipping time **YOUNG HIGHCROWNED BULBS** are essential. Plant around the middle of January and put the Glads 5-6 inches apart. **DON'T WATER THEM TOO MUCH**, just keep them moist, you can give them plenty of water, when the buds show. Keep the bulbs at a carnation temperature.

We are always at your service. Our lifelong experience in growing Gladioli is entirely yours. If we can do anything for you, just tell us about it.

THE UNITED BULB COMPANY

# GLADIOLI

Special prices quoted on large quantities. 100 of a variety will be sold at the 1,000 rate. Add 10% to all orders for less.

# PEONIES

## STRONG 2-5 EYES DIVISIONS

The varieties listed herein are for some reasons leading in their kind, thus eliminating for our customers the trouble of making their choice from some 900 or 1000 varieties, now in existence.

Most of these are rated above 7, the few rated lower being listed on account of some special merit not found in others.

Besides the rating, we have marked the varieties as to the time of flowering; following explains the letters used: V. E. means very early, E.-Early, M.-midseason, L. M.-late midseason, L.-Late.

The varieties marked with a \* are Especially Recommended for CUT FLOWERS, thus making it as easy as possible for our florist-customers to make their selection.

The best time for planting is from September 1st till the ground freezes; the earlier the better.

Orders coming in after it gets too late to ship in the fall, will be held till next spring; those which come in too late for spring delivery, will be held till following fall.
